CRANDALL'S

WORLD "WANTS" WORK WONDERS

FOREIGN POWERS KEEP CLOSE WATCH ON WILSON'S MOVES

British, German and French
Press Reflect Opinions of
Their Governments.

LONDON, April 20.—Mexico overshadowed all other matters to-day as far as public interest in the British Isles was concerned. Local and imperial politics, although of great importance, had to give way to what has been considered here for a long time the inevitable intervention by the United States to restore order in Mexico.

The Westminster Gazette, a leading Government organ, in expressing the view that nothing can now avert war, or, if not war, what the late William E. Gladstone would have called "military operations," says:

"One cannot pretend to be surprised that this should be the end of the refusal of the United States to recognize Gen. Huerta. There are a good many nations which in other circumstances might have tackled the hornet's nest, but this case is one in which the Monroe Doctrine adds the United States with heavy obligations from which there is no escape."

The Pall Mall Gazette, an Opposition newspaper, says:

"Our sympathy with the Americans does not blind us to the perils of the course to which they seem about to commit themselves."

The Globe says: "Upon the United States will be laid the extremely difficult duty of protecting both its own nationals and foreigners exposed to Mexican barbarity, and in all probability of an eventual reorganization of the whole country. Undoubtedly Gen. Huerta's action is a counsel of desperation adopted in the hope that all factions in Mexico will unite with him to repel the 'gringo' attack. Many observers are of opinion that this may prove correct. In that case the United States has before it a gigantic task."

The Evening Standard, which also thinks that Gen. Huerta hopes to produce a wave of popularity for himself, is of the opinion that he is mistaken. It says:

"Gen. Villa is unlikely to let dust be thrown into his eyes by such a manoeuvre. He is winning and knows it and he has no intention of relinquishing the prize when it is almost within his grasp."

Continuing, the Evening Standard says intervention should be hailed with satisfaction by Europeans. Recalling the murder of William A. Brewster, the British ranchman, at Juarez, and the damage done to British property, it relates that Great Britain has altogether \$300,000 invested in Mexico and cannot afford to lose that sum. It believes the out-

come will be that Mexico will be policed by a strong national army under American supervision.

GERMANY'S POLICY FAVORABLE TO U. S.

BERLIN, April 20.—The German press as a rule is remarkably sparing in comment on the Mexican situation. The Cologne Gazette, however, in reflecting the attitude of the German Government, says:

"The German people have no cause to oppose the course of the United States with an unfriendly policy which besides having no object would only injure Germany's relations with the United States. Recent developments in Mexico can only be regarded as far as they affect German interests. If the Americans now succeed in establishing order and peace in that country there can be no objection from the German standpoint."

"The American people who have been kept in a state of continued unrest by Mexican affairs since the departure of Gen. Porfirio Diaz earnestly want at least to see peace established across their southern frontier and to see a government there which will give security to the country and not endanger America's huge interests."

FRANCE WATCHFUL, BUT NOT EXCITED BY MEXICAN TROUBLE

PARIS, April 20.—The attitude of the French Government in connection with President Wilson's policy toward Mexico is one of calm observation according to view expressed at the Foreign Office to-day. A disposition exists here to remain detached from events in Mexico unless incidents should arise directly concerning France.

The Bourne was depressed not only as regards Mexicans but most other securities, apparently because any international disturbance causes apprehension and doubt among French investors.

Boston Celebrates Patriots' Day. BOSTON, April 20.—Patriotic celebrations in Lexington and Concord and sports of various kinds throughout the State marked the observance of Patriots' Day. A military parade over a portion of the Paul Revere route and the annual Marathon run of the Boston Athletic Association were the principal events.

OFFICIALS FIND STEEL WORKMEN ARE BEST PAID

United States Corporation
Offers Average Wage of
\$2.85 Per Day.

Elbert H. Gary presided at the annual meeting of the stockholders of the United States Steel Corporation in the Hudson Trust Company's Building at No. 61 Newark street, Hoboken, to-day. Seven directors whose terms expired were re-elected for terms of three years each. They are Robert Bacon, George F. Baker, William E. Corey, Gardiner M. Lane, Samuel Mather, Daniel G. Reid and Henry Walters. J. S. Phipps was elected a director to succeed his father, Henry C. Phipps, who resigned.

Among those present at the meeting were President James Farrell, Vice-President David G. Kerr, Secretary Richard Trimble and Comptroller William Filbert. Messrs. Gary and Farrell and Percival Roberts Jr., as a committee appointed to investigate the condition of the workmen employed by the corporation with a view to improvement in their condition and wages wherever possible, made a lengthy report showing that the rate of wages paid by the corporation and its subsidiary companies was the highest in the last year of any year since the steel and iron industry attained its present magnitude.

The average number of employees of the corporation was 228,996. The total salaries and wages paid out amounted to \$207,206,176. The average salary paid, exclusive of the

executive and selling force, was \$4.85 a day. Inclusive of these forces, the average day's pay was \$2.92. In 1913, as in previous years, the average wage paid by the corporation was the highest in the industry, despite the rather unsatisfactory state of the market and the constantly narrowing margin between cost and return.

The new tariff law put the corporation into direct competition with foreign iron and steel plants, where the hours of work average twelve hours a day and the wages paid are about 50 per cent. less per man. Only 22.5 per cent. of the employees of the corporation work twelve hours.

The cost of safety work was \$660,593, and the rate of serious accidents was reduced 32.5 per cent. since 1906. The pension system is working smoothly. The average number of pensioners in 1913 was 2,092. Four hundred and twenty-five men were granted pensions in 1913. The average age of the pensioners was 63.73 years, and the average years of service with the corporation 28.82. The average pension was \$20.85. During the year 1913 46,488 employees subscribed for 30,608 shares of stock. The cost of sanitary work among the employees and about the plants was \$564,977.

Flood Called Back from Honeymoon. WASHINGTON, April 20.—Representative Flood of Virginia had a brief honeymoon. Married here Saturday afternoon, the Chairman of the House Foreign Affairs Committee was summoned back to Washington last night at 6 o'clock. He was in New York and caught the midnight train. On his arrival early to-day Flood said plans had been made for a meeting of the committee before noon.

Quit Suffering With Your Feet!

Yes, quit it today! No more tired, tender, aching or sweaty feet. No more tight-shoe torments. No more longing for those battered old slippers in the closet at home. Just treat those poor, ill-used feet of yours to something better with Johnson's Foot Soap and revel in the solid comfort it brings you. Johnson's Foot Soap simply draws out all pain and soreness, and leaves the feet feeling cool and rested. In successful use for 44 years. You can get it at almost any drug store—a big cake of solid foot-comfort for 25c.

WEST-19-EAGER FOR WAR.

DENVER, Col., April 20.—Great throngs crowded the streets in front of newspaper offices here last night, watching the bulletin boards for news concerning Mexican developments. When word came that the Mexican Government had refused to give an unconditional salute to the American colors at Tampico, the crowds cheered.

In front of one newspaper office the people took up the strain of "The Star Spangled Banner" and sang with uncovered heads. A spirit of patriotism was shown everywhere, and military organizations met to consider the formation of volunteer companies in event of a conflict with the Huerta Government.

FRECKLES

Don't Hide Them With a Veil;
Remove Them With the
Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails. Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.
